

CAPTURING MOMENTS IN HISTORY:

Since the 1964 Tokyo Olympics, Seiko has marked moments in sporting history. Through the development of cutting-edge technology, we strive to be at the forefront of sports timing, measurement and data services. Supporting a wide range of sports federations, rights holders and broadcasters, we provide proven solutions for the global stage.

[Seiko Sports Technologies](#)

OVERVIEW:

You will assist in the installation, calibration, and operation of Seiko’s systems to support the delivery of timing, measurement, and data services at national and international sporting events such as World Athletics Championships. This is an opportunity to join the Seiko team on a zero-hour contract based on your availability and the event schedule.

Please submit a covering letter and CV detailing your relevant experience to hello@seiko.co.uk.

THIS ROLE WOULD SUIT YOU IF:

You are a Sports Enthusiast with a background working in events a passion for excellence and flair for solving practical problems.

You would like the flexibility to work on top level sporting events around the globe on an ad-hoc basis or alongside other employment.

You want to work with and learn from a team of skilled, experienced and dedicated people.

You are able and willing to undertake extensive overseas travel.

KEY RESPONSIBILITIES:

- Installation and configuration of SEIKO's systems prior to major events, including unloading equipment, rigging network infrastructure, calibrating key systems, and performing pre-event checks.
- Liaising with competition officials, volunteers, athletes, Seiko Staff and other key stakeholders to ensure the successful delivery of services.
- Calibration, maintenance and operation of SEIKO timing, measurement, and data systems before, during, and after competition.
- Safe and efficient De-rigging and load-out of equipment post event.

SKILLS, QUALIFICATIONS & EXPERIENCE:

Ideal candidates will have a blend of skills and experience including the below.

ESSENTIAL:

- Experience delivering technical services at major televised sporting events.
- A quick learner with exceptional problem-solving skills.
- A Sports enthusiast, and particularly a keen knowledge of athletics.
- Ability to work both independently and part of a wider team to deliver under pressure.
- Flexible to unusual working patterns, and willing and able to travel internationally.
- Highly adaptable in a high pressure, live event / broadcast environment.
- A People Person comfortable dealing with event officials, volunteers and athletes as well as other technical providers.

DESIREABLE:

A high level of computer literacy with detailed understanding in **one or more** of the following areas:

- Experience installing and maintaining computer networks.
- Experience calibrating and operating camera-based measurement systems, e.g., motion capture systems, photo-finish timing systems etc.
- Experience calibrating and operating timing and wearable systems, e.g. Global/Local positioning systems, IMUs, chip-based timing systems etc.
- Experience installing and operating LED display screens.
- Educated in a STEM area. e.g., Computer science, engineering, sports science etc.

PAY & BENEFITS:

- £147 per day plus holiday pay equating to a total of £164.
- All travel, subsistence and accommodation provided whilst on assignment.
- Auto enrolment into company pension scheme.
- Staff Discounts on company products.

EQUAL OPPORTUNITIES STATEMENT:

We are committed to fostering an inclusive environment that promotes equal opportunities for everyone, valuing a diverse mix of talent, skills, and potential. We encourage applications from candidates of all backgrounds, with selection based solely on individual merit.
