

CAPTURING MOMENTS IN HISTORY:

Since the 1964 Tokyo Olympics, Seiko has marked moments in sporting history. Through the development of cutting-edge technology, we strive to be at the forefront of sports timing, measurement and data services. Supporting a wide range of sports federations, rights holders and broadcasters, we provide proven solutions for the global stage.

[Seiko Sports Technologies](#)

**OVERVIEW:**

Based at our UK office in Crewe, Cheshire you will assist in the preparation, maintenance, installation, calibration, operation and development of Seiko's video capture and measurement systems to support the delivery of measurement and data services at major sporting events.

The role will work alongside in-house and third-party developers on the specification, testing and deployment of future technologies in this area.

You will act as central point of contact and liaison for all external parties with whom we work alongside at major global sporting events providing team leadership for the group of casual staff assigned to all jumping and throwing events.

This is an opportunity to join the Seiko team on a full-time permanent contract.

You must have the legal right to work in the UK and reside within reasonable commuting distance of our office.

Please submit a covering letter and CV detailing your relevant experience to hello@seiko.co.uk

THIS ROLE WOULD SUIT YOU IF:

You are a Sports Enthusiast with a background in computer vision measurement systems and experienced working in live events. A passion for excellence, innovation and a flair for solving practical problems is in your DNA.

You can lead a team of skilled, experienced and dedicated people to deliver our renowned services and liaise closely with multiple third-party stakeholders.

You are able and willing to undertake extensive overseas travel.

KEY RESPONSIBILITIES:

- Undertake the preparation, testing, installation, calibration and configuration of Seiko's video capture and measurement systems prior to major events, including unloading equipment, rigging network infrastructure, calibrating camera systems, and performing pre-event checks.
- Work with UK and Japan based development teams on specifying operational, technical and user requirements for new and enhanced system features and testing features when delivered.
- Take a role leading a team of technicians at events acting as a central point of focus for any queries and offering support to troubleshoot and resolve any technical issues. Ensuring all parties have a positive experience of working with Seiko.
- Ensure accurate capture, processing and output of all competition measurements in line with governing regulations.
- Liaising with competition officials, volunteers, athletes, Staff and other key stakeholders to ensure the successful delivery of services.
- Efficient and safe de-rigging and load-out of equipment post event.
- Completing any fault or escalation reports post event and following through to ensure resolution.
- Assist in planning and executing hardware and software upgrades on systems between events to optimise performance.

**SKILLS, QUALIFICATIONS & EXPERIENCE:**

Ideal candidates will have a blend of skills and experience including the below.

ESSENTIAL:

- Experience installing, calibrating and operating camera-based computer vision measurement systems, e.g. motion capture or similar systems etc.
- Educated in a STEM area. e.g. Computer Vision, engineering, sports science etc.
- A high level of computer literacy with detailed understanding of installing and maintaining computer vision networks.
- A personable and experienced professional, confident working with event officials, volunteers, athletes, and technical providers to ensure smooth event delivery.
- Experience delivering technical services at major sporting events.
- A quick learner with exceptional problem-solving skills.

- A Sports enthusiast, and particularly a keen knowledge of athletics.
- Ability to work both independently and part of a wider team to deliver under pressure.
- Flexible to unusual working patterns, able and willing and able to travel internationally.
- Highly adaptable in a high pressure, live event environment.

DESIRABLE:

- Good working knowledge of World Athletics regulations concerning jumping and throwing disciplines

PAY & BENEFITS:

£40,000 - £50,000 p.a. depending on experience

25 days holiday plus Bank Holidays

Pension Salary Sacrifice & Pension Matching

- Company Sick Pay
- Private Medical Scheme
- Dental Cashback Plan
- Life Assurance
